ARCHOS

ARCHOS 5 / ARCHOS 7
Portable Media Players

Enjoy continuous and instant access to the internet, media and TV. Ultra-thin with an ergonomic design the Archos 5 and Archos 7 provide the power of a laptop with t implementation of the ARM® Cortex™ superscalar microprocessor and a high resolution 5" or 7" touch screen (800 x 480), which lets you enjoy media content in high quality. Enjoy a permanent connection to the Web and access to emails via a 3.5G/HSDPA network connection (requires optional 3.5G Ready plug-in). They also feature animated wallpapers, high-resolution playback with the HDMI output on TV, a capacity up to 320GB and a search engine facility to easily find files.

- Incredible processing power means users have an unrivalled way to surf the Web on the go, with web pages fully displayed on the ARCHOS screen as with a PC.
- Surf the Web on the go without having to zoom in and out—web pages are displayed full size on the screen
- Full-fledged email application (IMAP or POP) lets you check and reply to emails and share attachments (only compatible formats).
- Virtual keyboard makes writing emails a quick and easy task.
- Adobe Flash 9 video support allows native browsing of video-sharing websites such as Dailymotion and Youtube.
- Access nearly 1,000 Web TV channels, over 10,000 Web radio stations and 100,000 podcasts in less than 3 clicks.
- High-resolution 5" (Archos 5) or 7" (Archos 7) screen delivers the finest image available on a portable device, with the same viewing comfort as a 32" or 42" TV screen in a living room.
- Browse through photos with a simple flick of the finger or play a slideshow of your last vacation, with transition and music effects.
- Download your entire CD collection and create playlists without using a PC. Album artwork covers bring your music to life.
- Watch a movie or listen to music stored on a PC, directly on the Archos 5 or 7 without transferring the file. Just browse the PC hard drive wirelessly and play any file stored on it by streaming it via a WiFi network. No transfer needed, just stream.
- Transfer files quickly and easily via the USB 2.0 connection to a PC (can be used as a portable hard drive).
- Optional Mini Dock charges the Archos, and lets you transfer photos directly from a digital camera, USB key or USB hard drive.
- With the optional DVR Station, they offer a fast and easy way to record TV programs for viewing back directly on the tablet or TV. Once connected to the DVR Station, the Archos 5 or 7 can turn a TV into a real multimedia platform connected to the Web to enjoy all the ARCHOS' functions on the big screen. Movies can be enjoyed in HD quality, as well as music, high resolution pictures, games or the Worldwide Web.

SONY

WALKMAN Video MP3 Players

An audio and visual delight, Sony's NWZ Walkman video MP3 players sport an attractive and easy-to-use graphical user interface, and have an nnovative feature called SensMe, which uses beats-per-minute and an algorithm to analyze portions of your music and automatically create music channels. For your listening enjoyment, they include a pair of high-quality EX 9mm driver headphones that produce a wide range of acoustical sound. Plus, the hadphones are engineered with an angular design that fit comfortably in the ear.

- Take your entertainment with you and listen to your favorite music, podcasts and FM radio stations.
- View photos or watch videos on the bright, 2" (320 x 240) LCD screen
- Four integrated clear audio technologies allow you to enjoy all of your music and videos with superior sound.
- Long-lasting battery lets you listen to music for up to 40 hours or watch 10 hours of video before you need to recharge
- 4GB versions store up 900 songs or 15 hours of video, 8GB version store up to 1800 songs or 30 hours of video.
- They support multiple high-quality video formats including AVC (H.264/AVC), MPEG-4 and WMV giving you more freedom to download the kinds of video that you want.

4GB: Blue *(B&H # SONWZE436FBL)*, Black *(B&H# SONWZE436FB)*, Pink *(B&H# SONWZE436FP)*, Red *(B&H# SONWZE436FR)*.....**139.95**

Also available with integrated noise canceling technology that cancels up to 75 percent of ambient noise:

4GB *(B&H# SONWZS736FB)*: Black with Noise Cancellation ..**144.95**
8GB *(B&H# SONWZS738FB)*: Black with Noise Cancellation..**166.95**

NWZ-W202B

Shed the wires with this ingenious Walkman. With the remarkable design of the compact NWZ-W202B — 2GB of memory built directly into the high-grade Sony headphones—you never have to worry about dangling wires again. New "Zappin" function with jog dial operation lets you find songs easily by scanning through your tunes and playing a portion of the main melody and letting you choose to skip or play it. Includes a handy dock, perfect for charging and loading your music.

- Superior sound quality with 13.5mm EX headphones
- Runs 12 hours on a fully charged battery (takes just 30 minutes to fully charge), or get 90 minutes of playing time in Quick-Charge mode—only 3 minutes to charge!
- Sony's Unique Spiral form headphones fit comfortably behind the neck.
- Supplied "Content Transfer" lets you easily transfer non-DRM music files by "drag and drop" from online music services.

COWON

O2
Portable Multimedia Player

Compact for maximum portability but packed with features, the O2 comes with T-DMB receiver, electronic dictionary, and can playback DivX, XviD, MPEG4, WM9, H .264 video files and WMA, MP3, AC3, AAC, FLAC, OGG audio files. It features a 4.3" touch-screen display, SD cards slot, and is available with 16GB or 32GB of storage capacity.

- Davinci chipset handles various codecs so you can spend more time enjoying your media instead of decoding it.
- With 10-band EQ, BBE (refines sound quality), Mach3Bass (provides deeper, tighter more musically accurate bass), MP Enhance (restores and enhances the harmonics lost through compression), and 3D surround (provides three-dimensional surround sound effect), Cowon's JetEffect brings compressed music to life.
- Besides watching videos on the vibrant 4.3" screen, a composite output is available for connection to a TV.
- Share your favorite JPEG, GIF, PNG, TIF, BMP, and even RAW images on the go.
- Text viewer lets you view pretty much any text file, and you can add support for pdf, Microsoft Word, PowerPoint and Excel files. Adjust the font size, character spacing, color, and properties to your preference.
- Powerful internal rechargeable battery can power the O2 for up to 18 hours of audio playback or 8 hours of video playback.
- Take notes with the note pad feature or take voice memos with the built-in microphone

S9
Portable Multimedia Player

With its stylish, titanium/black face and curved-back ergonomic design, ease-of-use, and comfortable grip, the Cowon S9 is quite the eye-catcher, and the perfect way to enjoy your favorite movies, TV shows, photos, and music on the go. Features incredible audio quality, JetEffect Music Enhancement, vibrant 3.3" AMOLED wide touchscreen display, intuitive user interface, Bluetooth capability, voice recorder with built-in microphone, FM radio/recorder, and much more.

- The thinnest display available, the 3.3" scratch-proof, tempered AMOLED (Active-Matrix Organic Light Emitting Diode) screen with 480 x 272 resolution is viewable from virtually any angle and looks great in the dark or in direct sunlight.
- AMOLED has a much faster response than conventional LCDs, leaving no ghost images while displaying videos of sports and movies. It also offers a far higher 10,000:1 contrast ratio.
- Supports AVI, WMV, MP3, WMA, FLAC, OGG, WAV video and audio file formats and Xvid, SP/ASP, WMV9, SP/MP, MPEG1 Layer 1/2/3, WMA, FLAC, OGG Vorbis, OGG and FLAC video and audio codecs.
- BBE+ sound effect technology takes audio to the next level, taking your breath away with delicacy and realism.
- Next-generation JetEffect 2.0 audio technology with improved EQ filter, Mach3Bass, 3D Surround and MP Enhance audio processing.
- FM radio with 24 user-presets, record live radio for later listening
- Never miss a precious moment with voice and line-in recording
- Built-in Bluetooth 2.0 support (A2DP, AVRCP Profile)
- Play 55 hours of audio or 11 hours of video on a single charge

8GB *(B&H# COS98B)*: Titanium/Black.....**179.95**
16GB *(B&H# COS916B)*: Titanium/Black.....**219.95**

A3
30, 60, 80GB Portable Media Players

The A3 delivers a wide-range of high-end audio/video capabilities, including direct recording from a TV, DVD player or camcorder using an AV input/output cable, and high-definition video decoding for viewing on a 4-inch widescreen (800x 400) LCD. It is also equipped with an FM radio and recorder, voice recorder with internal microphone, built-in stereo speakers, and functions as a full-screen photo and document viewer.

- Built-in Lithium-ion battery provides up to 9 hours of audio and 7 hours of video playback in a single charge.
- Enhanced sound quality with JetEffect (BBE, Mach3Bass, MP Enhance, 3D Surround) and 10-band EQ with audio settings.
- With its high-speed USB 2.0 interface and USB host functionality, it also doubles as data storage and high-capacity photo backup device for digital cameras with support for JPEG, GIF, PNG, TIF, BMP and RAW image formats.

D2
16GB Portable Media Player

The compact, ultra-stylish D2 features a 2.5" LCD touchscreen that is perfect for viewing movies and photos on the road, plus it has a built-in FM tuner, and supports MP3, WMA, OGG WAV, APE and FLAC audio codecs. Also supports QVGA video (320 x 240) at 30 fps. Built in microphone lets you record memos or lectures on the fly. You can also record from external sources with the line-in jack. Internal Li-poly rechargeable battery handles up to 52-hours of continuous audio playback battery life, or 10-hours of video. Recharging is as simple as hooking up to the USB connector, or via the wall jack.

SAMSUNG

P3

Widescreen Portable Multimedia Player

Just 0.39" thin, the P3 squeezes a 16:9 widescreen video player, studio-quality audio player, ultra-portable photo album, personal voice recorder, FM radio, and even a portable storage drive into one compact device. The P3 can also be paired with a Bluetooth enabled phone, allowing users to use the built-in microphone to answer calls directly through the player.

- Impressive 3" WQVGA TFT-LCD touch screen allows for 16:9 widescreen enjoyment of video and photos without the need for letterboxing.
- EmoTure™ touch interface with true haptic feedback adds a new level of connectivity between the player and its user. With every command gesture, from swiping a finger across the screen, to switching audio tracks, to holding down a digital button for FF video, the P3 reacts with a variety of physical sensations for a more intimate user experience versus other media players.
- Music Hot Touch Key, located just below the touch screen, allows users to instantly access favorite music features and selections without needing to cycle through multiple menus.
- Incorporates Samsung's updated DNSe 3.0 sound enhancement technology to ensure listeners experience the most natural, full-bodied sound possible. With DNSe 3.0 enabled, users can enjoy sound quality that more accurately matches the tone and feel originally intended by the audio producer.
- Integrated speakers let you share this great sound with others.

iPod shuffle

The World's Smallest Digital Music Player

The new iPod shuffle is so small, it doesn't have room for a screen, controls or even buttons. To create the world's smallest music player (1.8" tall x 0.3" thin), Apple moved the controls to the earbud cord. This makes the new iPod shuffle dramatically smaller and easier to use, with the controls located where you can access them quickly. And even though it is smaller than a "AA" battery, it packs 4GB of memory to hold 1000 songs.

- With the press of a button, the VoiceOver feature tells you what song is playing and who's performing it. It can even tell you the names of your playlists, giving you a new way to navigate your music.
- The shuffle switch has three positions. Flip it to the left, and your music shuffles for a "whatever happens, happens" flow. Flip it to the middle, and your songs play in order. Or flip to the right to turn it off.
- The stainless steel iPod shuffle clip attaches securely to your shirt, jacket, workout gear, or even your backpack.
- An optional anodized aluminum case — available in silver or black — makes iPod shuffle a wardrobe essential.

4GB Silver *(B&H# APIPS34S)*.....**79.00** **4GB Black** *(B&H# APIPS34B)*.....**79.00**

CREATIVE
XDOCK iPod Dock with Streaming

Use the XDOCK to integrate your iPod in your home theater system. The XDOCK will bring its content to life by utilizing Creative Lab's X-Fi Xtreme Fidelity, Crystalizer, CMSS-3D, and DTS Interactive. When combined with X-Fi Wireless Receivers, it easy to stream your iPod content to any room in the house up to 100' away. Access your iPod's contents via the remote. XDOCK will charge your iPod when docked.

- X-Fi Xtreme Fidelity restores detail and clarity to compressed files and expand your music and movies to surround sound.
- Connect XDOCK to your DTS decoding home system via digital optical cable and enjoy surround sound.
- Plug in other players via 3.5mm miniplug. Connect the XDOCK to monitors and TVs via S-Video or video composite out.

iRecord
Personal Media Recorder

The iRecord Personal Media Recorder is a portable media recorder for portable USB storage devices, iPods and PSPs. Just connect the video source to the S-video or composite video connections, plug in the USB device and hit record and the media will be recorded to your device. The iRecord's H.264/AVC and AAC encoding will give about 3 hours of A/V recording time on just 1GB of storage space.

- Records directly to audio and video iPod, PSP and any USB 2.0 mass storage device
- Records from any analog video source including DVD player, TV, TiVo, VCR, or any cable/satellite set-top box
- Supports NTSC, PAL, and SECAM video standards
- Encodes high-quality H.264 video with AAC audio at 320 x 240
- Encodes music using MP3 encoding standard; supports both Windows and Macintosh iPods
- USB card readers let you use many removable storage devices with iRecord (SD, MMC, Memory Stick, CompactFlash etc.)

iRecord *(B&H# STIRECORD)* **169.95**

ALESIS JAM DOCK

Jam along with your iPod! JamDock is the cleanest way to integrate your iPod into your practice or live music setup. You can connect and mix in nearly any instrument including electronic drums and send your mix to the stereo outputs and headphone output. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup.
JamDock enables you to mix your iPod and your instrument and practice with headphones, amp, or PA system. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses. The inputs sum to mono when there is only one side present, so you'll hear your guitar on both sides of your headphones. A pair of 1/4" outputs feed your amplifier or PA system, and a 1/4" stereo output feeds your headphones.

Jam Dock *(B&H# ALJD)* **99.95**

ezGear **ezVision X4** Video Glasses

ezVision x4 offers you a 64" virtual screen that fit like a pair of glasses. Now you can watch TV in privacy. Whether you are on a plane or you're a night owl and don't want to disturb your partner, the ezVision allows you to watch in complete privacy. Ultra lightweight with built in earphones you can enjoy movies, music videos, cartoons, and podcasts.

- Simulates a 64" TV screen with a 4:3 aspect ratio when viewed at a distance of 8.5'.
- Runs up to 5 hours on a Lithium Ion rechargeable battery pack
- The battery pack is just 1/2" thick and includes your power switch and volume control.
- Built-in quality earphones with an integrated earphone holder and a coiled cable to keep the wires neat.
- ezVision Video Glasses are completely compatible with your iPod. For iPod video, a small adapter cable is all you need. For the new iPod Touch, iPod Classic, or iPod nano, you need and iPod Composite A/V Cable to connect to the ezVision.

ezVision x4 *(B&H# EZX4VG)*: Includes 2 customizable nose pieces, rechargeable battery, A/C charger, RCA and iPod video cables **349.00**

M402SR Moondance Glow
Stereo/Alarm Clock for IPod with Wireless Snooze Remote

Compatible with all docking iPods, the Moondance Glow can wake you up, entertain or help you relax, all at the touch of a button.Mood lighting function lets you choose your color and intensity, then splash it on the wall; or turn it off.

- Dual alarms wake you with your favorite tune, FM radio station or standard alarm.
- Amber LCD with dimmer light displays song and FM data feeds (RDS) *(B&H# ALM402SR)* **139.95**

M302 Moondance Home
Music/Alarm Clock for iPod

Whether you prefer the sound of an orchestra or the wail of a rock star, the Moondance Home delivers crystal clear sound in a space-saving design. Wake to your iPod, radio or alarm with progressive alert volume. Use the onboard controls for the sleep timer, dual alarms, snooze, radio tuning or enjoy the convenience of the full-function remote.

- Charges your iPod • Large LCD display with dimmer light
- FM radio with digital tuning and wire antenna for superior reception

M302 Moondance Home *(B&H# ALM302)* **79.95**

M812 octiv AIR
Wireless Speaker System for iPod

Get brilliant sound for your iPod from up to 100' away. Put your music where you want it, on a wall, a table, anywhere at all, and control it using the supplied remote. Two responsive, 4" woofers and 1" silk dome tweeters, along with a 80 watts of digital power, drive the octiv Air's clear, powerful sound. Add another speaker to double the power and separate the left and right channels. Or you can "unwire" your music listening experience by adding up to 7 optional wireless speakers throughout your home.

- Digital amplification delivers powerful, crystal-clear sound
- Proprietary DSP technology and custom drivers combine to deliver deep rich bass
- 2.4GHz digital transmission uses multiple channels to co-exist with other wireless devices
- Transmit music to the speaker wirelessly, through walls, floors and ceilings up to 100' away.
- Transmitter dock streams your favorite station from the built-in FM tuner to the speaker
- Charges your iPod while you play

M812 octiv AIR *(B&H# ALM812)* **299.95**

All Altec Lansing sound systems have a 3.5mm stereo mini-jack that let you connect an MP3, laptop, CD and DVD player or other audio devices

JBL

ON STAGE 200iD • ON STAGE 400P

High Performance Loudspeaker Docks for iPod and iPhone

The 200iD and 400P are compatible with docking versions of the Pod touch, iPod nano G3, iPod classic and iPhone. Otherwise the same, the 200iD has two high frequency drivers that are also capable of low frequency extension to bring you clean, powerful bass. The 400P steps up with four Odyssey high frequency drivers and an Atlas woofer for clean power bass.

- Navigation controls let you browse songs, playlists and photos, change tracks and settings, and more.
- Enjoy your iPod, view photos or videos, and listen to virtually any other auxiliary audio component.
- Connect the USB cable to your computer for full compatibility with iPod and iTunes
- Charge your iPod, even when not connected to the computer or if the system is off.
- Supplied smart remote lets you control the volume, change tracks, FF and REV. Access your music, view your slideshows, and find and play your videos.
- 3.5mm (1/8") stereo mini-jack lets you connect MP3, laptop, CD and DVD player or other audio devices

SONY PRS-505 • PRS-700BC
Reader Digital Books

Svelte and stylish, Sony's PRS-505 and PRS-700BC Readers sport the dimensions of a slimmed down paperback book. Weighing just 10 ounces and a 1/2" thin, they are the perfect way to carry all of your favorite books with you wherever you go. The Reader Digital Books provide a new way to experience reading. They offer an impressive 6" display, utilizing breakthrough E Ink® technology that's almost paper-like, making it easy to read, even in bright sunshine. In addition, the screen allows for high contrast and high resolution, with a near 180º viewing angle. The text can also be magnified for sight-impaired readers.

- High contrast electronic paper display technology provides a reading experience similar to ink-on-paper. The result is crisp text and graphics that are highly readable, even in bright sunlight.
- They use minimal power and can sustain up to 7,500 pages of continuous reading on a single battery charge.
- Zoom in and out as well as adjust the text into three (PRS-505) or five (PRS-700BC) sizes.
- The PRS-505 can hold about 160 eBooks in its memory, the PRS-700BC about 350. Using optional removable Memory Stick Duo or SD memory cards, they can hold literally thousands of books and documents.
- With thousands of eBook titles available at the eBook Store from Sony, you can choose to download new releases, classics and popular book titles as well as view other document formats such as Adobe PDF10, RTF, TXT, BBeB® and Microsoft Word.

PRS-505: Available in Silver *(SOPRS505SCD)*, Dark Blue *(SOPRS505LC)* and Sangria Red *(SOPRS505RC)* **268.95**

PRS-700BC Step-up Features

- Interactive touch screen lets you turn pages with the slide of a finger or activate the bookmark. You can also create annotations with a virtual keyboard, highlight text with a stylus pen, search for text in your digital book, and easily adjust the font size.
- Built-in LED reading light gives you the ability to read at night or other low-light situations without bothering others around you.

PRS-700BC *(SOPRS700BC)*: Black **399.00**
